

# Mini-Star CE Version

Here is our CE-marked Mini-Star with safety covers and other necessary features to meet the EU standards/requirements. This small-sized soy milk plant makes rich, flavorful, and tasty soy milk!

## Easy Procedures

- ① Insert soaked soybeans.
- ② Turn on the switch.
- ③ Mini-Star grinds soybeans with water and makes slurry.
- ④ Slurry is heated.
- ⑤ Heated slurry is separated into soy milk and okara.

**Compact Size !**

## FEATURES

- ◆ CE marking version complied with the EU requirements.
- ◆ A full set of soybean constant feeder, grinder, cooker, and squeezer.
- ◆ Suitable for a small-scale production with a limited space.
